

RULES FOR ACCEPTING NEW ORGANISATIONS TO HYY'S PREMISES BETWEEN THE ALLOCATIONS OF PREMISES

Between the actual allocations of premises, the Financial Committee of HYY's Board may accept new organisations to HYY's premises according to the following principles.

Outside the allocation process for premises, premises are only given to organisations that have not received premises in the allocation of premises. The organisation must have been accepted to operate under HYY by the end of the application period, and its up-to-date contact details must be in the TAHLO system. The premises are allocated to organisations' use until the end of the ongoing allocation period. When new organisations are accepted to the premises, the principles of the allocation of premises in effect at the time are followed.

During the allocation periods, organisations may apply for premises twice a year. The deadline for applications in the spring is at 3 pm on the last day of February when HYY's Services Office is open, and in the autumn it is at 3 pm on the last day of September when HYY's Services Office is open. Late applications for organisational premises will not be processed.

The Financial Committee of HYY's Board decides on accepting new organisations to the premises. Before the decision on locating a new organisation is made, the committee must hear the organisations already operating in the premises. When making the decision, the committee must strive to find a solution that suits all organisations. The Financial Committee's decision may be appealed to HYY's Board in accordance with the Student Union's Constitution.
