

Selection committees in autumn 2020

What is the Central Selection Committee? What are selection committees?

The Student Union's Representative Council shall establish the Central Selection Committee for its term to prepare the selection of student representatives. Each Representative Council group may propose one member for the committee and a maximum of two vice members for them. The members are selected in such a manner that the Representative Council groups elected in the previous Representative Council elections as well as the faculties of the University shall be represented in the Selection Committee if possible.

The duties of the Central Selection Committee include publishing the calls for applications for student members in the University Board, University Collegium, faculty councils and the executive groups of degree programmes; establishing selection committees to prepare the selection of each of the University's faculties' student representatives to the faculty councils, the executive groups of degree programmes and the University Collegium in accordance with the provisions in this Regulation; interviewing as many of the applicants to the University Board as considered necessary; and making a proposal to the Representative Council of the persons to be selected to the University Board.

The Chair of the Student Union Jussi Nuortimo acts as the chair of the Central Selection Committee and its secretary is Jenna Sorjonen (0503255202, jenna.sorjonen@hyy.fi).

Faculty-specific selection committees are established annually to prepare the selection of student representatives in administration. In autumn 2020 they will make selection proposals to HYY's Board on the student representatives to the steering committees of bachelor's and master's programmes (excl. the bachelor's programme of the Swedish School of Social Sciences). HYY's board will make the final proposal to the dean of each faculty.

The Central Selection Committee

Representative Council group	Member	1st vice member	2nd vice member
Ainejärjestöläiset	Jyrki Rantanen	Timo Kalliokoski	Mikael Lehtonen
